

Accept payments directly in RUX Rentals

RUX users can process rental payments without leaving their existing rental workflows. The EBizCharge integration brings secure payment processing directly into RUX Rentals, while automatically syncing transactions to Microsoft Dynamics 365 Business Central.

Manage payments and automate your workflow

Accept all payment types

Accept credit, debit, and ACH payments directly in RUX Rental

Get paid from the beginning

Collect deposits and process payments at the time of contract creation

Offer easy payment options

Offer your customers flexible payment options and automate collections

Automatic sync

Transactions made through RUX Rentals automatically sync with Dynamics BC

Automatically sync transactions from RUX Rentals into Dynamics BC

Why RUX Rentals users love us

Natively embedded

Our in-house developers built EBizCharge to be natively embedded RUX Rentals, so you can run transactions without leaving your system.

Built for rental workflows

Collect deposits, manage recurring billing, and issue refunds when rentals are returned.

Real-time sync with Business Central

All transactions automatically sync to Dynamics 365 BC for up-to-date financials.

Features to speed up collections and simplify management

Payment features

Run transactions

Accept payments directly in PDI or via EMV card readers

Advanced security

Protect data with tokenization, encryption, and secure off-site storage to reduce liability

Email pay

Email secure payment links to your customers for fast invoice collection

Mobile payments

Accept payments on-site and sync transactions in real time

Auto-pay & recurring billing

Automate payments with flexible billing schedules

In-person terminal

Accept secure, EMV-compliant payments for on-site or walk-in transactions

Customer management

Request payment method

Securely collect and manage payment details—no manual entry required

Saved payment methods

Save multiple payment methods per customer for faster future transactions

Card updater

Automatically notify and update customers saved payment methods when they expire

Transaction history

View complete transaction history in RUX Rentals and Dynamics 365 BC
