🌟 How it works

- ✔ Install the pre-built EBizCharge add-on to your SuiteCommerce site.
- ✔ Customers can securely pay at checkout or from their account using new or saved payment methods.
- ✔ Collect payments directly in your SuiteCommerce store, on online orders, or on customer accounts.

Features

Run Transactions

- ✔ Process payments in real time directly in your SuiteCommerce store using new or saved customer payment methods.

Customer Checkout

- ✔ Let customers complete purchases right on your SuiteCommerce store using a secure, fully integrated payment form.

Customer Payment Portal

- ✔ Offer a branded, self-service portal for customers to view and pay invoices anytime.

Mobile Pay

- ✔ Collect payments on the go with mobile access that syncs directly to your SuiteCommerce account.

Hosted Checkouts

- ✔ “No-code” online payments forms that are quick and easy to set up.

Saved Cards

- ✔ Customers can save cards or bank accounts for faster, more convenient repeat checkouts.

Request Payment Method

- ✔ Easily request and securely store customer payment data for quick future checkout

Even more features...

Pre-authorize transactions

- ✔ Automatically verify funds before the charge to confirm availability and reduce risk.

Surcharge

- ✔ Option to implement surcharges to conveniently accept credit card payments while offsetting the processing fees.

Customizable fraud prevention modules

- ✔ Adjust fraud settings and filters to match your business needs and minimize chargebacks.

Custom Reporting

- ✔ Build custom forms with 50+ search criteria or use one of our pre-built reports.

What's in it for you?

Unlimited Support

- ✔ Our in-house U.S. team handles installation, training, troubleshooting, and other inquiries you have.
- ✔ A chargeback management team makes it easier than ever to handle disputes.

Advanced Security

- ✔ Use the latest in payment security including tokenization, encryption and TLS 1.2 protocols.
- ✔ Offload liability by storing payment data on our secure third-party servers.
- ✔ Adjust fraud modules to customize your gateway's security settings.
