

# Accept payments directly in RUX Rentals

RUX users can process rental payments without leaving their existing rental workflows. The EBizCharge integration brings secure payment processing directly into RUX Rentals, while automatically syncing transactions to Microsoft Dynamics 365 Business Central.

## Manage payments and automate your workflow

### Accept all payment types

Accept credit, debit, and ACH payments directly in RUX Rental

### Get paid from the beginning

Collect deposits and process payments at the time of contract creation

### Offer easy payment options

Offer your customers flexible payment options and automate collections

### Automatic sync

Transactions made through RUX Rentals automatically sync with Dynamics BC

**Automatically sync transactions  
from RUX Rentals into Dynamics BC**

# Why RUX Rentals users love us

## Natively embedded

Our in-house developers built EBizCharge to be natively embedded RUX Rentals, so you can run transactions without leaving your system.

## Built for rental workflows

Collect deposits, manage recurring billing, and issue refunds when rentals are returned.

## Real-time sync with Business Central

All transactions automatically sync to Dynamics 365 BC for up-to-date financials.

## Features to speed up collections and simplify management

### Payment features

#### Run transactions

Accept payments directly in PDI or via EMV card readers

#### Advanced security

Protect data with tokenization, encryption, and secure off-site storage to reduce liability

#### Email pay

Email secure payment links to your customers for fast invoice collection

#### Mobile payments

Accept payments on-site and sync transactions in real time

#### Auto-pay & recurring billing

Automate payments with flexible billing schedules

#### In-person terminal

Accept secure, EMV-compliant payments for on-site or walk-in transactions

### Customer management

#### Request payment method

Securely collect and manage payment details—no manual entry required

#### Saved payment methods

Save multiple payment methods per customer for faster future transactions

#### Card updater

Automatically notify and update customers saved payment methods when they expire

#### Transaction history

View complete transaction history in RUX Rentals and Dynamics 365 BC
